

KNN CLASIFICATION
for
MNIST DATABASE
By
Mustafa SARITEMUR

Metric	Manhattan	Euclid
K-->1	96,31	96,91
K-->3	96,33	97,06
K-->5	96,18	96,85

To compile code file paths in constant.java must be changed.

```
public class constants {
    static String Training_Image_Directory
    static String Training_Label_Directory
    static String Testing_Image_Directory =
    static String Testing_Label_Directory =
```
